As you know my dad Donnie Goodine's battle with cancer came to an end on June 16th. It is with lots of sadness that we said good bye. Many of you heard me speak about how truly blessed my family was to have great support from the community. Being from a small town in the Maritimes the community comes together to take care of their own. My dad was taken back by the generosity of everyone in particular the Charlotte County Cancer Society. They demonstrated exactly what it means to be from the Maritimes; giving in a time of need. This group stepped up and offered financial assistance for drug costs, off-set travel costs, and other associated cost of treatment. My dad's legacy was to be able to help the Charlotte County Cancer Society to continue to do the work that they do. Amazingly, 94% of all the money raised by this charity goes directly back into the community to support families battling cancer.

As a small business owner of Donald Goodine Trucking and St Stephen Transport Services, he built a reputation for hard work, finding a solution to every problem, treating people fairly and with respect. He also contributed back to the local and business community. He was a great mentor, he provided a service where one didn't exist and he always supported people in need.

As both my husband and I have lost our fathers to Cancer, we are hosting a charity golf tournament and dinner to be held on July 26th in St. Stephen with proceeds going to Charlotte County Cancer.
